Streaming Video

What is Streaming? Streaming is a way to watch TV shows, movies, and/or live TV using the Internet. Here's what you'll need to stream:

- . Internet Service: the internet speed needed will vary for each household depending on the number of devices and TVs/screens you're streaming, along with other online activities.
- . A Smart TV or Streaming Device: streaming devices like Amazon Fire Stick, Roku, Chromecast, and Apple TV can be purchased from major retailers. Amazon Fire sticks are also available for purchase at BeresfordTel.
- . Streaming App Subscription: some streaming apps come with free trials and have channel lists to view online to see available channels. Here are just a few apps to choose from: YouTube TV, Netflix, Hulu, Sling, Amazon Prime Video, Fubo TV, Disney+, Discovery+, and HBO Max.

If you have questions about getting started streaming in your home, give us a call at 605-763-2500 or stop in our office at 120 E. Main St. - we're happy to help!

Attention Snowbirds! Before heading south this winter, give us a call to put your services “on vacation” while you are away from home. When you will be away from home 4 weeks or more, your services will be suspended until your return. While on vacation rate, there is a small monthly charge for the telephone, and no charge for the Internet and cable, and no reconnect fees. If you are interested in putting your services on vacation, please give us a call when you are ready to leave for the winter, and then let us know **a few days prior to your return** so we can have everything reconnected and ready when you get home.

Find Your Number for a Bill Credit!

Find your phone, Internet or cable number somewhere in our newsletter and win a \$10 credit on your next bill! We have hidden randomly selected numbers of two customers somewhere in this newsletter. If you find your number, call our office at 605/763-2500 by September 20th to verify & we'll add a \$10.00 credit on your next bill.
